Artron Rapid Zika IgG / IgM Antibody Test Kit
This is a rapid, visual, qualitative and convenient immunochromatographic in-vitro assay for the deferential detection of IgG & IgM antibodies to Zika virus in human serum, plasma, and/or whole blood samples.

Urinspect™ Urinalysis Test Strips
Available in 2,3,10, and 11 parameters
Tests for Urobilinogen, Glucose, Bilirubin, Ketones, Specific Gravity, Blood, pH, Protein, Nitrate, Leukocytes and Ascorbic Acid

Fertility Test Kits

✓ Diagnostic sensitivity at 15 million sperm/mL (WHO 2010 Standard)
Rapid sperm concentration assessment
Less expensive and more convenient than a trip to the fertility clinic

✓ Pregnancy (HCG) Test (available in regular and ultra-sensitive)
Unparalleled sensitivity 10mIU/ml (for ultra-sensitive test kit)
99.99% accuracy

✓ Ovulation (LH) Test
Rapid testing and quick results (2 minutes for result reading)

Infectious Diseases Test Kits

✓ Detect 3 HIV/HCV/HBV Combo Kit
A convenient 3-in-1 test that eliminates the need to separately test for HIV, HCV, and HBV infections
First HIV/HCV/HBV Combo Kit of its kind to be approved by CE
Infectious Diseases Test Kits

- **Rotavirus, Adenovirus (Ad40 and Ad41), Rota/Adeno Combo Test**
  Sensitivity 10⁵ cfu/mL

- **Malaria Pf/Pv/Pan Test**
  Accuracy of malaria diagnosis confirmed by WHO standards
  Detection limit of 50 parasites/mL

- **Dengue Test**
  Available in IgG/IgM Antibodies, NS1 Antigen or IgG/IgM/NS1 Combo test kit
  Can test for dengue in serum, plasma and whole blood

- **Vibrio Cholerae Test**
  Differential test for three major subtypes: O1-Ogawa, O1-Inaba, O139
  Supports testing of both water and fecal samples

- **Helicobacter Pylori Test**
  Diagnostic test for H. Pylori in feces and gastric biopsy specimen
  Sensitivity 97.6%

- **Neisseria Gonorrhoeae Test**
  Sensitivity > 10⁴ cfu/ml

- **Treponema Pallidum (Syphilis) Test**
  Sensitivity 98%

Drugs of Abuse Test Kits

Available in many formats: Cups (Fast Detect™), Dip Cards, Cassette and Strip

Tests for 14 different targets such as: Cocaine, MDMA (ecstasy), THC, Methamphetamine, Opiates, Amphetamine, and more...

Cardiac Markers Test Kits

- **Cardiac Troponin I (cTnI) Test**
  Detection limit of 1 ng/mL
  Gold standard for myocardial infarction testing

Tumor Marker Test Kits

- **FOB Test**
  Sensitivity 30 ng/mL
  No cross-reactivity with hemoglobin from other animal species
